

A dimly lit recording studio. In the foreground, a large mixing console with numerous sliders and knobs is visible. To the right, a professional microphone is mounted on a stand. The background shows various pieces of audio equipment, including amplifiers and rack units, with some indicator lights glowing. The overall atmosphere is professional and creative.

SUNO AI — тэги и формат написания песен

Полное руководство по структуре, тэгам и стилям для создания музыки в Suno AI

ОСНОВЫ

Концепция написания песни

Давайте разберем концепцию написания песни.

Основа песни это всегда куплет и припев. Куплет мы отмечаем словом [Verse], припев словом [Chorus].

Как пример:

[Verse]

Здесь текст куплета,
Песни про лето,
Песня не спета,
Без куплета

[Chorus]

А это припев, как мощный прогрев!
Здесь кто-то спел, про то, как летел!

[Verse]

Ещё куплет,
Про десять конфет,
Эта песня про лето,
Содержать два куплета.

[Chorus]

А это припев, как мощный прогрев!
Здесь кто-то спел, про то, как летел!

В целом этого уже достаточно для того, чтобы написать песню в Suno. Иногда куплеты называют по цифрам [Verse 1] и [Verse 2], нумеруя их, но это не обязательно.

Добавляем соло и проигрыши

Конечно же песня всегда интересней звучит, когда кроме текста в ней есть ещё проигрыши и соло.

Как вариант, если мы хотим вначале песни вставить музыкальный проигрыш, мы можем написать следующий тэг:

[Instrumental Interlude]

Инструментальная интерлюдия — музыкальное начало.

[guitar solo] / [piano solo]

В местах где мы хотим сделать соло на каком-либо инструменте.

[end]

Чтобы завершить песню, крайне желательно указать тэг [end]. В таком случае с большей долей вероятности песня будет закончена в этом месте и Suno не начнет петь по новой один из куплетов.

ВОКАЛ

Дополнительные вокальные вставки

В случае, если в вашей песне есть голосовое текстовое интро его можно указать через тэг **[Intro]**

[Intro]

Голосовое текстовое интро

[Pre-Chorus]

Пред припев

[Bridge]

Вокальный мостик — текст, который соединяет части песен и петься должен не так же как куплет или припев

(ooh)

Фоновое пение или подпевка — обрамляется в круглые скобки

[Outro]

Концовка — текст перед самым концом

ПРИМЕР

Пример с использованием всех тэгов

[Instrumental Interlude]

[Verse 1]

Здесь текст куплета,
Песни про лето,
Песня не спета,
Без куплета

[Pre-Chorus]

Сейчас будет очень
классный припев (oooooooo!)

[Chorus]

А это припев, как мощный прогрев!
Здесь кто-то спел, про то, как летел!

[guitar solo]

[Verse]

Ещё куплет,
Про десять конфет,
Эта песня про лето,
Содержать два куплета.

[Pre-Chorus]

Сейчас будет очень классный припев (oooooooo!)

[Chorus]

А это припев, как мощный прогрев!
Здесь кто-то спел, про то, как летел!

[guitar solo]

[Bridge]

Ещё раз хочу я пропеть припев
Я не допел, я не успел

[Pre-Chorus]

Сейчас будет очень классный припев (oooooooo!)

[Chorus]

А это припев, как мощный прогрев!
Здесь кто-то спел, про то, как летел!

[Outro]

Это была шикарная песня,
с просто шикарным концом!

[end]
